

Non-remote general betting limited operating licence

This licence allows you to provide facilities for betting on tracks (for example, horse race courses and greyhound tracks) as an on-course bookmaker.

Part of

[Licences and Fees](#)

If you want to provide facilities for betting on tracks (on-course bookmakers), you are required by the [Administration of Gambling on Tracks Ltd \(opens in new tab\)](#) (AGT) to hold public liability insurance and a valid [Horserace Betting Levy Board \(opens in new tab\)](#) certificate. For more information about these requirements you should contact AGT directly.

If you are a track bookmaker we ask you to estimate the number of days you and your representatives will work on-course in the next annual period, in order to calculate the application and annual fees that you will need to pay.

If you operate exclusively at tracks you should include all days planned for both you and your representatives at any kind of track, for example if:

- you and your nominated representative both plan to attend two meetings, each on the same day (four meetings in all for the business that day) this would count as two days worked (two working days)
- you and your nominated representatives attend separate pitches at the same track, however the pitches are linked and thereby controlled by you; this would count as a single day worked (one working day)
- you and your nominated representative attend separate unlinked pitches at the same track; this would count as two days worked (two working days).

We need to know the total number of days you and your representatives will work, irrespective of how many tracks you visit in a day.

In recognising the market conditions faced by on-course bookmakers standing at [Bookmakers' Afternoon Greyhound Service \(opens in new tab\)](#) (BAGS) meetings staged for broadcast to the off-course betting industry, the arrangements for calculating working days is slightly different.

An on-course bookmaker who stands at a BAGS greyhound meeting that is televised at licensed a betting premises, and which starts after 8am and ends before 7pm, need not count that meeting towards the overall total number of days.
