

Remote casino game host operating licence

This activity allows you to provide remote casino under specific circumstances

Part of

[Licences and Fees](#)

Regardless of where you are based in the world, you need a licence from us if:

- you are providing facilities for gambling to consumers in Great Britain online (or through any other means of remote communication)
- any part of your remote gambling equipment is based in Great Britain.

There is a remote operating licence for each type of gambling activity you might want to provide.

Hosts

Some **gambling software** businesses provide facilities for remote gambling by making their games available to customers of other operators. For example, rather than supplying its game software directly to remote gambling operators, the gambling software business hosts its own casino games on its own server, and those games can be accessed by customers of other operators through those other operators' websites.

If you are a **gambling software** business that provides facilities for playing casino games but **only** in circumstances in which you host those facilities through other operators' platforms, then you may be eligible to hold a **remote casino (game host) operating licence**.

This licence will allow you to provide facilities for casino gaming by means of remote communication (for example, a website) and only in circumstances where the following criteria are met:

- You hold a gambling software operating licence
- You do not contract directly with any of the customers who play the casino games you provide ie only customers of another operator can access your casino games via that other operator's website or app.

Current application fees

[Back to top](#)

Fee category	Annual gross gambling yield	Application Fee
F1	Less than £550,000	£3,168
